## Youtube Risks – Uploading Video

Many children spend a lot of time watching vloggers (Video Log) such as Zoella. (Zoella can have over 3 million hits on her uploads!) Some children chose to emulate these Vloggers, and in doing so without careful thought can leave themselves open to bullying or online grooming by revealing personal details and making videos and comments available to anyone.

This is not illegal but the minimum age to create a Youtube account is 13. Having an account for a younger child breaks the terms and conditions of the site. It is not possible to upload videos without creating an account.

## **Are you worried about your child online?**

The internet can be a fantastic place for children and young people where they can talk to friends, be creative and have fun. However, just like in the real world sometimes things can go wrong. If you or your child are worried or upset about something which has happened on the internet there is help out there.

If your child has experienced something which has made them feel uncomfortable or someone is trying to meet up with them, you can report this directly to us.

This may have happened in a chat room, message board, instant messenger or on a social networking site. It could be on a mobile phone, games console or computer. It could be messages, images or conversations over webcam. The important thing is that if an adult is making sexual advances to your child on the internet you should report it to us.
