## **Are you worried about your child online?**

The internet can be a fantastic place for children and young people where they can talk to friends, be creative and have fun. However, just like in the real world sometimes things can go wrong. If you or your child are worried or upset about something which has happened on the internet there is help out there.

Has someone acted inappropriately towards your child online?

If your child has experienced something which has made them feel uncomfortable or someone is trying to meet up with them, you can report this directly to us.

This may have happened in a chat room, message board, instant messenger or on a social networking site. It could be on a mobile phone, games console or computer. It could be messages, images or conversations over webcam. The important thing is that if an adult is making sexual advances to your child on the internet you should report it to us.
